SKILLS

- **Languages**: C++, Java, JavaScript, PHP
- **Frameworks:** HTML and CSS, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js
- **Tools/Platforms**: MySQL, MongoDB, Postman, Vercel, Render
- **Soft Skills**: Problem Solving, Team Player, Adaptability, Analytical Thinking, Quick Learner

PROJECTS

StartUpLift – Startup Support & Resource Platform | Live **Dec 25**

- **Developed** a MERN-based application to support early-stage startups by providing access to resources, mentorship information, and growth tools through an interactive web interface.
- **Designed** responsive and dynamic user interfaces using React and Tailwind CSS, ensuring smooth navigation, modern design, and mobile-friendly layouts.
- **Built** scalable backend APIs with Node.js and Express to manage data flow, user interactions, and secure client–server communication.
  Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Inkdrop – eBook Platform | Live **Jul 25**

- **Engineered** a scalable digital eBook platform enabling users to browse, request, and download books while providing administrators with a feature-rich dashboard to manage categories, uploads, and activity logs.
- **Implemented** secure authentication and structured CRUD operations to ensure reliable data handling and controlled access.
- **Optimized** API performance and UI responsiveness to deliver a seamless reading and management experience.
  Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Listique – Digital Wishlist Platform | Live **Apr 25**

- **Architected** a digital wishlist platform that enabled users to create, save, and organize wishlist items for personal use or events.
- **Streamlined** database operations to provide a simple, responsive, and secure system using **PHP and** MySQL to manage wishlist data with efficient CRUD operations.
- **Built** a functional platform that enhanced wishlist management, improved user convenience, and demonstrated strong end-to-end development expertise.
  Tech Used: HTML, Tailwind CSS, PHP, MySQL

TRAINING

Full Stack Development in React and Node | **Certificate** **Jan 25 – Jul 25**

- Created an end-to-end web platform aimed at deepening understanding of modern web application architecture. Contributed as a backend and frontend trainee by working with **React, Node.js, Express, and MongoDB** throughout the training.
- Delivered a fully functional end-to-end application that **demonstrated** seamless integration between client and server.
  Tech: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

ACHIEVEMENTS

- **Secured Global Rank 598th:** **Nov 25**
  Among 28000+ participants in LeetCode Weekly Contest 475 | **Link**
- Solved 500+ LeetCode, GFG and HackerRank | **Link** **Nov 25**

CERTIFICATES

- Java Programming | Lovely Professional University | **Certificate** ***May 25***
- Cryptography and Network Security | NPTEL | **Certificate** ***Apr 25***
- Data Structures and Algorithms | Lovely Professional University | **Certificate** ***Dec 24***
- Responsive Web Design | freeCodeCamp | **Certificate** ***Nov 23***

EDUCATION

- **Lovely Professional University** **Phagwara, Punjab**
  Bachelor of Technology in Computer Science and Engineering | CGPA: 7.0 **Aug 23 – Present**
- **K.B Inter College** **Kanpur, Uttar Pradesh**
  Intermediate | 78% **Apr 21 – Mar 22**
- **K.B Inter College** **Kanpur, Uttar Pradesh**
  Matriculation | 83% **Apr 19 – Mar 20**
